Department of Public Administration & Political Science going to organize Interdisciplinary National Webinar on "Women Empowerment: Concept and Reality" on dated 08/03/2021.

The contribution of all sections of the society is important for the overall development of the country. For this, men and women need equal opportunities for development. There is no doubt that the country becomes capable if the women in the society are capable. This underscores the importance of women empowerment in modern times. In India, it is said that women are being victimized at the government and administration level. But have women really been empowered? It seems important to find the answer to this question. In order to have a detailed discussion and study in this regard, our Department of Public Administration and Political Science has selected the topic of "Women Empowerment: Concept and Reality" for the webinar.

We invite all student, teachers and research scholars to participant in this webinar.
